## 2 Day Paediatric First Aid – OFSTED approved

*We provide this 2 Day Paediatric First Aid Course which is OFSTED approved to ensure you meet the requirements of your registration as an early years provider as well as ensuring you receive the training required to deal with young children in an emergency situation. The Paediatric First Aid Course is designed at giving parents and carers confidence, practical ability and knowledge of dealing with ill and injured children and babies.*

### Introduction

The Paediatric First Aid Course is designed at giving parents and carers confidence, practical ability and knowledge of dealing with ill and injured children and babies. This course meets OFSTED requirements for first aid training in early year's settings and links to the common core skills of the early years foundation stage. The course is suitable for anyone providing care for children and babies. Candidates will learn essential practical and theoretical skills, so they can deal competently with situations that may arise when caring for children and babies. Ofsted approved Paediatric first aid courses can be run directly at your business or a venue of your choice. The course will last 2 days (12 hours), in accordance with OFSTED guidance.

### Duration

2 Days

normally 9:00am – 4:15pm

we are flexible with Start times to accommodate the needs of your business. Please feel free to discuss your timings with us.

### Who should attend the 2 Day Paediatric First Aid Course?

The Two Day Paediatric First Aid – OFSTED approved Training Course is primarily aimed at those working in child-care settings, but it will be useful for anyone with responsibility for caring for infants and children. Such Organisations may include:

- **Teachers and School ancillary Staff**
- **Nursery Managers and Staff**
- **Playgroup Leaders and Supervisors**
- **Schools**
- **School Support Staff**
- **Local Community Staff**

## Where Can I attend the 2 Day Paediatric First Aid Course?

We can deliver 'in house' training at your Business venue and can provide you with a competitive price for group training. We can deliver any of the above courses at your place of work.

The 'on site' training option is particularly cost effective for Companies that have several people requiring training at the same time (usually 6 or more people). In addition to this there are many other benefits to arranging a first aid training course 'on site':

- *Choosing your own venue gives greater convenience.*
- *Travelling and accommodation costs can be reduced or removed.*
- *A greater choice of course types are available.*
- *The course content can be tailored to your exact requirements.*
- *Businesses and Organisations can choose a suitable time to run their course.*
- *Courses can be run anywhere in the UK.*

## Course aims

This course meets OFSTED requirements for first aid training in early year's settings and links to the common core skills of the early years foundation stage. The course is suitable for anyone providing care for children and babies. Candidates will learn essential practical and theoretical skills, so they can deal competently with situations that may arise when caring for children and babies. This course can be tailored to any work environment including schools.
